Come, experience the best of today and move towards a better tomorrow.

FUTURE HAS A NEW DESTINATION NEW WEST BENGALURU

As the story of Bengaluru goes, for years, the inhabitants preferred central and west Bengaluru for their residential needs. The peripheries of Bengaluru have become an ideal choice for investors as well as home buyers.

The Tumkur region in the northwest Bengaluru is undergoing a transformation with major infrastructural developments taking place. These developments ensure multi-nodal connectivity to all parts of the city. Furthermore, the CAGR* (11% as of 2017) of this locality is higher than various other prime locations in Bengaluru. Apart from this, it also enjoys a better air quality due to its virtue of being away from the over-populated areas of the city.
